

PHYSICAL CONNECTION TEST

SUREN NETWORK
PLAY WITH TECHNOLOGIES

1, Types of mediums ?

- * Radio Frequency - Wireless
- * Electrical Signals } Wired
- * Light Signals }

2, Write down switch 8-pins ?

1 +R

2 -R

3 +T

4 +V

5 -V

6 -T

7 *

8 *

3, Connect utp cable between two devices

Router

PC

1 +T ————— +T1

2 -T ————— -T2

3 +R ————— +R3

4 +V ————— +V4

5 -V ————— -V5

6 -R ————— -R6

7 * ————— *7

8 * ————— *8

Straight Cable

4, Explain AUTO MDIX ?

Based on the data (Signals), received on the Ethernet cable, the NIC on Switch port automatically changes its internal TX/RX mapping.

5, Explain POE injector ?

- * Power over Ethernet Injector adds electrical power to an Ethernet Cable.
- * So the end devices doesn't need a separate power adapters.

6, Explain POE switch ?

- * POE Switch is a network switch that can send both data and power through the Ethernet Port.
- * Can be connected to multiple devices.
- * Combines the job of normal network switch and multiple POE injectors.

7, Explain types of nic & function ?

NIC

- * Network Interface Card.
- * Contains MAC address and IP.
- * Additional NICs, can be added in PCI port.

Functions

- * Used to convert binary to electrical signal and electrical to binary signals.

Types:

- * Wired
 - Ethernet
 - Fiber Optic
- * Wireless
